Everplus Superstore INC | 2022-2026

Web app developer | Programmer

Projects

- **Maya report** - receives hundred thousands of sales data made via paymaya and enable accounting sales dept. to generate several sales report in different format per branch and per tender and match it to the pos sales within minutes.
- **Online Third party agency attendance** - allow third party agency of Ever to track their employee's(security,guards,engineering,jani tors) attendance as a basis to their payroll.
- **Online Supplier's diser attendance** - allow suppliers to track their diser attendance as a basis to their payroll.
- **Consilated PO** - this program receives a purchased order data of all branches via excel file upload, then the system will consolidate the data and display the result to the user for checking and the user incharge in branch can input the number of orders arrived then the system will display a data table showing the allocation of all available number of orders to all sub branch depending on their priority level.
